

# JAVA Programming Certificate in Computer Technology

## Entrance Requirements:

Acceptable ASSET or COMPASS score, plus if a student is currently enrolled in a computer programming program or has been out of school less than two years, the student will be required to take CPT 234 or demonstrate that he or she has had the equivalent course. If a student has completed a computer programming program and can document two years of programming work experience, the department will waive the CPT 234 requirement.

## Type of Program:

Day, night or online

## Type of Degree:

Certificate

- The Java Programming Certificate is aimed at students and current programmers who are looking to update their skills by learning the JAVA programming language. The certificate is intended to prepare the student to take the Sun Certified JAVA Programmer exam. There will be no guarantee made to students that they will pass the exam, but topics expected to be on the exam will be covered by the courses contained in this certificate.
