

Microsoft Network Technician Certificate in Computer Technology

Entrance Requirements:

Acceptable ASSET or COMPASS score

Type of Program:

Day, night or online

Type of Degree:

Certificate

- The program is designed to provide students with technical abilities in the areas of network administration and support. Students will become knowledgeable of the various network media types, topologies, protocols and standards. Courses will provide students with entry-level skills necessary to help manage and troubleshoot system environments that are running on the Microsoft Windows network operating system.
- The courses in this program will prepare students for the CompTIA A+ and Network + certification exams as well as several Microsoft certification exams including the Microsoft Certified Systems Administrator (MSCA) and Microsoft Certified Desktop Support Technician (MCDST) exams.
