Whether the field is manufacturing, services, hospitals or even fast food, a great deal of money can be saved when materials flow efficiently and effectively. Supply chain management, which includes all steps from product planning to delivery, is critical to the success of an organization and can often give one organization an advantage over another.

Whether you have moved into a job in materials management or logistics and need the degree to move ahead, or you have a talent for efficiency and organization and could benefit from formal training in order to pursue one of the many high-paying positions available in the field, Greenville Technical College's associate degree program in supply chain management can give you the skills you need while preparing you to test for industry certifications.

**Career Opportunities**

Job titles include
- Materials manager
- Industrial production manager
- Buyer
- Logician
- Risk manager
- Production planner
- Purchasing manager
- Project manager
- ERP analyst

Every firm needs those that understand how the processes of business are integrated. GTC uses SAP training which demonstrates and reinforces this crucial concept.

**Program Award**
- Supply Chain Management Associate Degree
- Enterprise Resource Planning Certificate

Greenville Technical College provides equal opportunity and affirmative action in education and employment for all qualified persons regardless of race, color, religion, sex, national origin, age, disability, sexual orientation, or veteran status.

Why Greenville Tech?

Greenville Technical College's Associate Degree in Supply Chain Management is part of the Business and Public Service Division and is accredited by ACBSP, the Accreditation Council for Business Schools and Programs. In addition, Greenville Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award certificates, diplomas and associate degrees. Contact the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call (404) 679-4500 for questions about the accreditation of Greenville Technical College. These accreditations mean that employers and other colleges recognize the quality of education you have received.

Our program has agreements in place with Southern Wesleyan University, Limestone College and Franklin University, providing seamless transfer for those who wish to earn a bachelor's degree.

A part of the SAP University Alliance

Our Supply Chain Management program has recently become a member of the SAP University Alliance. This enterprise resource planning (ERP) software is the clear industry leader; in fact, it is estimated that 80% of all products in the world touch SAP at some point. Upon completion of three SAP courses, students will receive a SAP University Alliance student recognition award.

BMW Scholars Program

GTC is the only technical college in the state with a degree in Supply Chain Management (SCM). Students in the SCM program now have the opportunity to be a part of the BMW Scholars program. This allows students to attend class and work at BMW, furthering their education, gaining real-world experience, and becoming candidates for full-time employment at BMW. Students in the Supply Chain Management associate degree program who are accepted into the BMW Scholars program will receive tuition assistance.

Visit www.gvtec.edu/gainful-employment/ for important information about the educational debt, earnings, and graduation rates of students who attended this program.
