• Must provide copy of state license Points awarded for certification in healthcare only – not employment

Section C
While other health programs at Greenville Tech may take various kinds of volunteer activities, please remember that in order to receive credit for DMS volunteer time, all volunteer hours must be hospital-based. No other types of volunteer time will be accepted.

Documentation requirements are as follows: **NO EXCEPTIONS**

• A letter on hospital letterhead should be submitted with the Weighted Admission form.
• The letter should be completed by a volunteer services coordinator. The letter must be dated and signed by that person with a phone number or email denoted so we can contact them to verify your hours of service.
• 50 hours of service: The letter must state which departments you rotated through, the date(s) and how many hours were spent in each department.
• 6-8 hours observing in an ultrasound lab: MUST be completed as part of or in addition to the 50 hours above. If your letter does not have specific information about your rotation in an ultrasound lab, stating that you were observing ultrasound scans on actual patients, you will not be eligible for the extra points on the weighted admissions form that are given for a rotation in an ultrasound lab. We want you to see what an ultrasound scan consists of so you can determine your level of interest in this career field.
• Please note that most accepted students completed all of the above volunteer opportunities! We believe that not only is it important for you to see what a career in ultrasound looks like, it might also be necessary for you to do this to be accepted to our program.

Section C
• You cannot receive work experience points without a W2 and/or a signed letter from your employer stating the dates that you were employed (verifying at least 6 months) and providing contact information.
